

For a smarter future

Parking Guidance

Our powerful sensors and smart phone technology work together to fight traffic congestion by guiding motorists to available car spaces.

Access Control

Our access control solutions combine our industry leading technologies to create a cost-effective, streamlined way to automate and ensure payments in your off-street car parks.

Contactless QR

Our secure, cash-free, contact-free way to pay can banish cumbersome cash-handling from community events, clubs and facilities—without having to download another app.

Infringement Issuance

We've brought together world-class software, hardware and portable printing to create a smarter way to issue infringements, customised for the needs of your unique community.

Parking Sensors

Our subterranean parking sensors offer accurate occupancy data for bays in which they're deployed, critical for enforcement, events management and optimising your parking operation.

Infringement Management

Our whole-lifecycle infringement management solution is efficient, community-focused and purpose-built to support your enforcement activities from the moment you issue an infringement to the moment of its resolution.

Data Analytics

Whether it's a single meter or an entire locality, our powerful, purpose-built insight solutions help you understand your parking operation with comprehensive data visualisations and reporting.

Digital Permits

Our ePermits solution helps you reduce administration and complexity by automating simple but repetitive tasks, and gives end-users the convenience of fully supported online self-service.

Mobile Apps

Our apps allow your community to check tariffs and make contact-free, secure payments, and they give you a lower-cost, more flexible way to manage parking.

Parking Meters

Our robust, reliable meters accept payment with cash, card and smartphone applications. With wireless connectivity and real-time updates, you always know the status of your fleet.

LPR

Our licence plate recognition solutions can capture, read and recognise thousands of vehicles every hour. Match registrations to permits, payments, and vehicles of interest instantly as you drive by.

Officer Services

We provide highly-trained, professional authorised officers for inspections, audits and enforcement. Take advantage of our industry expertise, high rates of payment, and experienced professional staff.

Reminder Services

Our community-centric, proactive infringement reminders service creates touch points with your community, preserves goodwill and lifts your infringement recovery rates.
