EziCom360

Make parking smarter — put your data in the driver's seat.

EziCom360 gathers data in real time from every Orikan solution deployed in your parking ecosystem and transforms it into accessible, straightforward business intelligence.

Orikan offers a complete, end-to-end suite of connected technologies for parking management. EziCom360 is the lynch-pin that brings together the raw data from all those connected technologies and turns it into extraordinary impact.

FEATURES

- Connect every part of your Orikan parking ecosystem. View reports and dashboards across a wide range of metrics for insights that allow you to make decisions with confidence.
- EziCom360 can store up to 7 years of data to produce analysis and insights to empower future-proof decision-making.
- EziCom360 uses a secure web-based portal and does not require the installation of any additional software.

BENEFITS

- Turn your raw collected data into insights that reduce waste, support service delivery and lift return on investment.
- Parking professionals can use EziCom360 no matter what their technical backgrounds may be. It requires no in-house data analysis or transformation skills to produce actionable insights with impact.
- Standard dashboards and reports lean on Orikan's long expertise in the industry, and are designed with parking professionals in mind: we know what councils, agencies and facility owners find most useful, and have tailored the platform to meet those needs specifically — no complicated installations required.

EziCom360 comes in a streamlined standard version which provides a strong base of standard analytics as well as a premium version for more intensive data analysis requirements. Choose the version that's right for your organisation:
