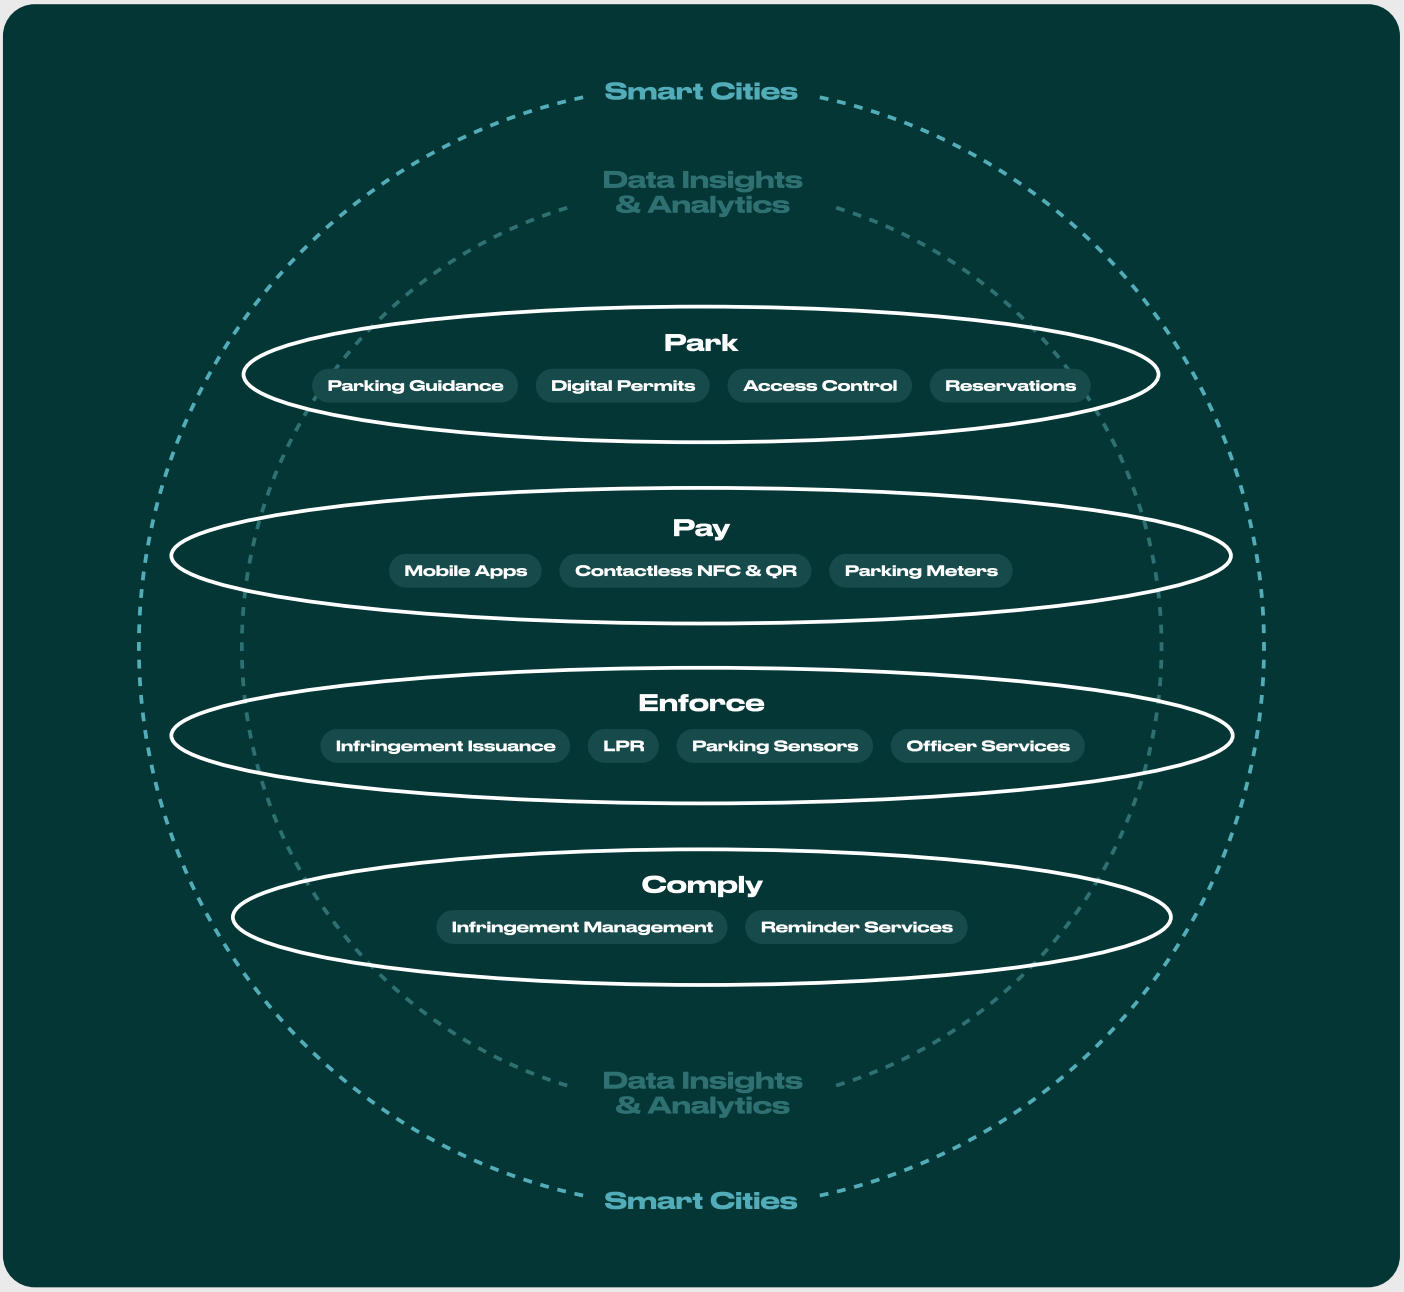
For a smarter future



Orikan

For a smarter future

Orikan is a world-class provider of a complete range of parking technology solutions that support real communities.

From meters, maintenance and smart payment applications to citation management, reservations and digital permits, compliance and analytics: we provide a one-of-a-kind, industry-leading suite of services. Supported by the passion and dedication of our outstanding and experienced team with a presence in the USA, Australia and New Zealand, our focus is on delivering our comprehensive solutions in a way that prioritizes our community-first ethos.

A NEW ERA IN SMART PARKING SOLUTIONS

At Orikan, we may be a young company, but our roots run deep in the industry. Formed in late 2022 from the merger of DCA Cities, an Australian leader in smart cities, and Global Parking Solutions from New Zealand, we have redefined what smart parking can be. Together, we launched the first truly holistic, end-to-end smart parking solution.

OUR JOURNEY

- **2025:** We proudly acquired Global Parking USA, a valued distributor of our Metro Meters and EziCom central management system, with over 15 years of experience in the U.S. market.
- **2026:** We continued our expansion by acquiring UbiPark, a specialist in digital solutions for commercial property owners, parking operators, and large institutional clients.

OUR PHILOSOPHY

At Orikan, we believe that parking technologies extend far beyond mere compliance or space management. They play a crucial role in shaping how our communities function, live, and thrive. This perspective lies at the heart of our community-focused ethos, driving us to create solutions that truly meet the needs of the communities we serve.
